Release 1.0 | Scenario date: 2026-09-15 | SaaS collaboration

Release 1.0 — available baseline scenario

Effective scenario date: 2026-09-01. 5 capabilities. All documents are readable and unencrypted. Availability is a scripted demo state that must be established through review and publication in the application; these files do not publish it.

Release 1.0 initial scope

Introduces Exchange, Teams, SharePoint/OneDrive, Purview and tenant access safeguards. This is an independent SaaS release, not Azure 1.2 or 1.3. No Azure resource allocation conveys a collaboration license. The open moderate Purview evidence handoff finding is carried forward with the stated corrective plan.
