Synthetic decision and reference record

SYNTHETIC DEMONSTRATION ONLY. All services, measurements, decisions, identities and evidence in this package are fictional. Not Microsoft provider data, a DoD approval, an IL5 authorization, a customer entitlement, or operational evidence.

Release 1.0 | Scenario date: 2026-09-15 | SaaS collaboration

Source identification

Source title: Microsoft 365 · Collaboration Fictional Service Release Review.

Issuer: SYNTHETIC Harbor Collaboration Demo Team Review Board.

Type: invented demonstration distribution decision and reference; NOT an ATO, P-ATO, accreditation, or DoD memo.

Reference ID: M365-REF-001.

Issued: 2026-09-01. Scenario expiration: 2027-08-31. Scenario review: 2026-12-01.

Status as stated: Approved. Decision type: fictional demonstration distribution approval; NOT ATO. Approved ONLY for fictional customer demonstration by the synthetic review board. No real signature or official seal exists.

Scope and exclusions

Only the five listed SaaS collaboration policy services; independent of Azure shared infrastructure and its customer allocations.

Excluded: Azure hubs and subscriptions, mission applications, endpoint compliance operations, telephony carriers, third-party apps, real tenant entitlements, and actual Flank Speed authorization.

Conditions

- Customer must complete its own authorization and allocation checks.
- Retain the open moderate logging evidence-delay finding and corrective milestones.
- PRIVATE working papers are not cleared for customer distribution.

Evidence basis

The reference cites the customer assessment summary, responsibility matrix and synthetic evidence index. Underlying samples are constructed examples, not observed provider operations.
